

TUF SIGNS MOUS WITH FOUR LEADING UNIVERSITIES IN BANGLADESH TO BOOST GLOBAL COLLABORATION

Prof Dr Abdul Hannan Chowdhury, Vice Chancellor, North South University and Prof Dr Aman Ullah Malik, Rector, TUF signing MoU to enhance academic cooperation.

Prof Dr Qumrul Ahsan, Vice Chancellor of University of Asia Pacific and Prof Dr Aman Ullah Malik, Rector, TUF signing MoU to foster academic collaboration and institutional partnership.

Prof Dr MD Lutfar Rahman, Vice Chancellor of Daffodil International University and Prof Dr Aman Ullah Malik, Rector, TUF exchanging official documents to mark the commencement of their academic partnership.

Prof Dr Mohammad Ali Azadi, Vice Chancellor of International Islamic University Chittagong and Prof Dr Aman Ullah Malik, Rector, TUF exchanging documents to formalize a new academic collaboration.

Under the patronage and support of the OIC Standing Committee on Scientific and Technological Cooperation (COMSTECH), and as active members of the COMSTECH Consortium of Excellence (CCOE), The University of Faisalabad (TUF) and Green International University (GIU), Lahore, marked a significant milestone in international academic collaboration by signing Memorandums of Understanding (MoUs) with four prestigious universities from Bangladesh on June 18, 2025. The signing ceremony took place at the COMSTECH Secretariat in Islamabad. Prof Dr Muhammad Iqbal Choudhary, Coordinator General of OIC-COMSTECH, witnessed the occasion.

Prof Dr Aman Ullah Malik, Rector, TUF had meetings with Vice Chancellors and signed MoUs with the Bangladeshi universities.

These MoUs aim to develop strategic collaboration in key academic and research areas, including joint research and publications, faculty and student exchange programs, development of dual degree and twinning programs, organization of joint seminars, workshops, and conferences, as well as the exchange of educational resources and academic expertise.

TUF STRENGTHENS ACADEMIC TIES WITH RUSSIAN EMBASSY

The University of Faisalabad is pleased to announce its ongoing efforts to enhance academic collaboration with the Embassy of the Russian Federation in the Islamic Republic of Pakistan. A distinguished delegation from TUF, led by Dr Muhammad Hamza Amin, Vice Chairman Board of Governors, met with His Excellency Mr Albert P Khorev, Ambassador of the Russian Federation.

The meeting focused on exploring potential avenues for academic cooperation, student and faculty exchange programs, joint research initiatives, and cultural exchange opportunities between TUF and Russian institutions. This strategic engagement reflects TUF's Devotion to expanding international partnerships that promote knowledge sharing, global exposure, and development opportunities for its students and faculty.

TUF RANKS AMONG TOP 400 UNIVERSITIES WORLDWIDE IN TIMES HIGHER EDUCATION IMPACT RANKINGS 2025

The University of Faisalabad (TUF) has once again demonstrated its commitment to global educational excellence and sustainable development by achieving a remarkable position in the Times Higher Education (THE) Impact Rankings 2025.

Out of 2,526 universities from 130 countries, TUF has been ranked in the 401–600 band worldwide, a significant achievement reflecting the TUF's impactful contributions toward the United Nations Sustainable Development Goals (SDGs).

Nationally, TUF has secured the 4th position in Pakistan among 127 universities, affirming its status as a leading institution for sustainability, innovation, and academic progress.

Green Gown Awards International

International Green Gown Awards for Climate Action

Diversity, Equity & Inclusion in Sustainability

We are pleased to announce that **The University of Faisalabad** is a Finalist in the International Green Gown Awards for Climate Action.

Together

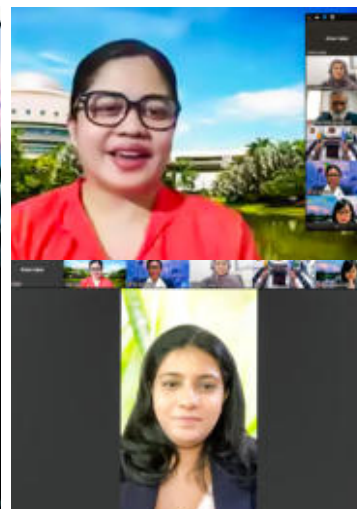

we continue to lead the way toward a healthier planet

TUF RECOGNIZED AS FINALIST IN GLOBAL GREEN GOWN AWARDS FOR DIVERSITY, EQUALITY & INCLUSION IN SUSTAINABILITY, AND ALSO FOR CLIMATE ACTION

At The University of Faisalabad, sustainability isn't just about protecting the environment, It's about ensuring that everyone has a seat at the table. Being named a finalist in the International Green Gown Awards for Diversity, Equity & Inclusion in Sustainability reflects how we weave equity into every initiative.

Climate change demands more than pledges it calls for action that resonates beyond boundaries. We're proud that The University of Faisalabad has earned a place as a finalist in the International Green Gown Awards for Climate Action. This recognition honors our hands-on work in turning research, innovation, and student energy into real climate solutions. From local projects to global conversations, we're proving that bold steps start at home.

TUF SIGNS MOU WITH SHINAWATRA UNIVERSITY (SIU), THAILAND

TUF has officially signed a landmark Memorandum of Understanding (MoU) with Shinawatra University (SIU), Thailand, marking a significant milestone in international academic cooperation.

On behalf of The University of Faisalabad, Prof Dr Aman Ullah Malik, Rector, TUF, signed the MoU, while Assoc Prof Zhou Fei, President of Shinawatra University represented and signed for SIU. Dr Amna Javed, Head of International Linkages at TUF, was also present during the ceremony.

The comprehensive framework for collaboration between the two universities includes faculty and student exchange programs, joint supervision of research projects, professional development seminars, collaborative research initiatives, and the sharing of academic resources through dedicated online platforms. Short-term faculty visits and student mobility programs are also key highlights of this partnership, aimed at developing mutual learning, research synergies, and cross-cultural understanding.

INTERNATIONAL SYMPOSIUM INNOVATION IN AMBLYOPIA CARE

The Department of Optometry, TUF proudly hosted the prestigious International Symposium on the theme "Innovations in Amblyopia Care: Bridging Evidence & Access for Pediatric Vision." This high-impact academic event brought together globally recognized experts, clinicians, and researchers to spotlight cutting-edge approaches in the diagnosis and management of amblyopia, including Dr Sameera Irfan, Pediatric Ophthalmologist, Oculoplastic & Neuro-Ophthalmologist, Pakistan, Dr Mei Ying Boon, Associate Professor and Program Leader, University of Canberra, Australia, Dr Yap Tiong Peng, FFAO, FACBO, FOVDR, Consultant Optometrist, Singapore.

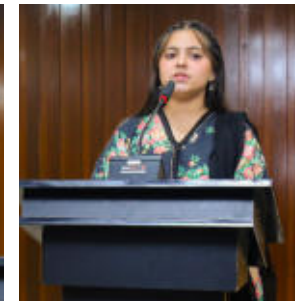

The symposium served as a vibrant platform for knowledge exchange, promoting both scientific innovation and healthcare equity in pediatric vision care. A key focus of the symposium was the need for equitable access to pediatric eye health services. Thought-provoking panel discussions encouraged dynamic exchange on practical solutions to address healthcare disparities and resource limitations across different healthcare systems.

The symposium was formally concluded by Prof Dr Amir Ali Chaudhary, Head, Department of Optometry & Ophthalmology, TUF, who appreciated the contributions of all speakers and attendees. Prof Dr Amanullah Malik, Rector, TUF, graced the event with his presence. In his concluding remarks, he lauded the Department of Optometry for organizing such a significant academic gathering.

The mega event concluded with a collaborative call for greater awareness campaigns, policy support, and capacity-building initiatives aimed at expanding access to amblyopia diagnosis and care across all communities.

EMPOWERING ALLIED HEALTH SCIENCES PROFESSIONALS: PATHWAYS IN PUBLIC HEALTH

The University of Faisalabad formally announced the launch of its Master of Science in Public Health (MSPH) program during a seminar titled "Empowering Allied Health Sciences Professionals: Pathways in Public Health." The primary objective of the event was to raise awareness among students of allied health sciences regarding potential career opportunities in the field of public health.

Prof Dr Sajid Hameed, Head, Department of Public Health at Green International University, Lahore, delivered an insightful address highlighting the expansive scope and global relevance of public health as a discipline. He emphasized its pivotal role in addressing health challenges at both national and international levels.

Prof Dr Sumera Riaz, Head, Department of Community Medicine, UMDC elaborated on academic career pathways within public health. She informed attendees that graduates holding a Bachelor's degree in Allied Health Sciences are eligible to pursue the MSPH program, thereby opening doors to diverse professional opportunities.

These include roles in academic institutions, international organizations such as UNICEF, the Bill and Melinda Gates Foundation, and the World Health Organization, particularly in consultancy and research positions within the field of public health.

The seminar also featured the presence of distinguished guests including Dr Bilal Ahmad, former CEO Health, Faisalabad, Dr Mushtaq Ahmed Shad, Medical Superintendent, Madinah Teaching Hospital, Dr Mushtaq Bashir, former MS, Dr Faisal Maqsood Teaching Hospital, Sargodha, Dr Muhammad Tahir, Associate Professor, Department of Bioinformatics, GC University, Faisalabad, who engaged with students and responded to their queries related to admission criteria and career prospects in public health. Prof Dr Aman Ullah Malik, Rector, and Dr Zahida Maqbool, Registrar, TUF, also shared their views. The event witnessed enthusiastic participation, particularly from students of the 7th and 8th semesters of The University of Faisalabad's Allied Health Sciences programs.

THE UNIVERSITY OF FAISALABAD SIGNS MOU WITH NETIXSOL TO ENHANCE INDUSTRY-ACADEMIA COLLABORATION

The Placement Bureau at The University of Faisalabad is proud to announce the signing of a Memorandum of Understanding (MoU) with NetixSol, marking the start of a dynamic partnership aimed at equipping students and professionals with real-world technological exposure and practical skills.

Through this collaboration, TUF and NetixSol will work together on a range of initiatives, including Industry-driven training programs, Internships, and job placement opportunities, Collaborative research and development projects. Speaking at the ceremony, representatives from both organizations emphasized the importance of preparing students for a future-ready digital economy.

LAW STUDENTS VISITED COMPETITION COMMISSION OF PAKISTAN MOU SIGNED TO STRENGTHEN ACADEMIC AND PROFESSIONAL COLLABORATION

The Faculty of Law organized an educational visit to the Competition Commission of Pakistan (CCP), providing LLB students a unique opportunity to gain firsthand exposure to regulatory practices and competition law enforcement in Pakistan. Led by Prof Dr Sami Ur Rahman, Dean Faculty of Law, the initiative aimed to bridge legal theory with professional practice. Dr Sami Ur Rahman also proposed the signing of a formal Memorandum of Understanding (MoU) with CCP to facilitate internships and further academic collaboration.

During the visit, students were welcomed by CCP Member Mr Saeed Ahmed Nawaz and Director General Mr Ahmad Qadir, who conducted an informative session highlighting the CCP's structure, enforcement mechanisms, and legal tools to ensure fair market competition. Topics such as anti-monopoly regulations, cartel control, deceptive business practices, and the role of lawyers in regulatory bodies were discussed in depth.

TUF HOSTS PROFESSOR DR MARGHOOB HUSSAIN TAHIR, RENOWNED URDU SCHOLAR FROM JAPAN

The Department of Urdu had the privilege of hosting an inspiring event to welcome Professor Dr Marghoob Hussain Tahir, a distinguished Urdu scholar from the Department of Urdu, The University of Osaka, Japan. During his visit, Professor Dr Marghoob Hussain Tahir delivered an enlightening talk on the promotion and teaching of Urdu in Japan, sharing valuable insights into the growing global interest in Urdu literature and language.

The event was presided over by Dr Riaz Majeed and graced by several eminent guests, including Dr Tariq Hashmi and Dr Maimoona Subhani from Government College University, Faisalabad; Professor Tahir Siddiqui, Director at Kanzul Madaris University; Khalid Mahmood (China); Dr Mehmood Mursal; Dr Rubina Yasmin; Dr Imran Zafar; Dr Mukhtar Hur; Mubashara Faryad; and Asjad Sajid.

SEMINAR ON TOOTH DECAY: HOW TO REVERSE IT AND AVOID CAVITIES” PROMOTES ORAL HEALTH AWARENESS

The Department of Dental Sciences organized an insightful seminar titled “Tooth Decay: How to Reverse It and Avoid Cavities”, aimed at raising awareness about oral health, identifying early signs of tooth decay, and sharing effective strategies to reverse enamel damage and prevent cavities. The guest speaker, Dr Ateeq ur Rehman, a renowned Consultant Endodontist from PMC Dental Institute, delivered a highly engaging lecture. Drawing from his clinical expertise, Dr Ateeq explained the biological processes of demineralization and remineralization of teeth and highlighted the importance of fluoride, xylitol, and calcium phosphate in enamel repair.

He also emphasized the role of a balanced diet, proper oral hygiene practices, and timely dental interventions in cavity prevention.

This initiative aligns with SDGs, Good Health and Well-being, by promoting awareness of oral health as a crucial component of overall health and disease prevention. It also supports Quality Education by delivering expert-level knowledge in an academic setting, enriching the learning experience of future dental professionals.

FIRST CONTACT SESSION OF CERTIFICATE IN

TEACHING & LEARNING

The first contact session of Certificate in Teaching and Learning (a certificate course in health professions education) was conducted from 16th-18th June 2025 in UMDC, The University of Faisalabad Saleem Campus in collaboration with Green International University Lahore. The session focused on Planning a teaching session with insights on Curriculum and Integration by Prof Dr Rehan Ahmed Khan Dean Assessment and HOD Surgery, Riphah International University Islamabad, learning theories by assoc prof Ahsan Sethi from Qatar University, emphasis on roles of a teacher by Dr Komal Atta Director DME UMDC, Blooms taxonomy and Learning objectives by Dr Fozia Yusuf Asst. Director DME UMDC, instructional design and lesson planning by Dr Taimur Ul Hassan, HOD Medical Education Independent Medical College Faisalabad. An Interactive Journal club was also arranged by Dr Komal for the participants touching upon research aspects of the topic studied and also uses of AI in medical research.

WORLD BLOOD DONOR DAY OBSERVED TO RAISE AWARENESS AND INSPIRE VOLUNTARY DONATIONS

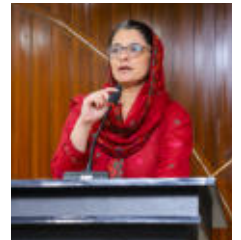

On 14 June, World Blood Donor Day is celebrated globally as a tribute to the millions of voluntary, unpaid blood donors who give others a second chance at life. Their generosity saves lives, strengthens communities, and embodies the spirit of solidarity.

Department of Pathology University Medical and Dental College has been celebrating this day in form of awareness lectures, seminars, blood donation activities and quiz competitions to encourage both new and existing donors, to highlight the positive impact of blood donation on health and well-being of others and to raise public awareness about the critical need for blood and plasma donations and the impact they have on patients' lives.

This year Pathology Department celebrated World Blood Donor Day with a seminar aimed at raising awareness about the critical need for safe blood donations and proper transfusions under the slogan of the year "Give blood, give hope: together we save lives".

The Event was enlightened by the presence of guest speaker Dr Usman Ansari, Professor of Hematology at Aziz Fatima Medical College & consultant hematologist at Agha Khan Regional Center, Faisalabad. Arooj Fatima, a student of the final year MBBS & President of the Blood Donation Society UMDC, provided a comprehensive overview of the society's mission and recent activities. Following her presentation, Sidra Aslam, Final Year MBBS student, shared digital posters created by students from all years as part of a competition. These posters emphasized the importance of blood donation.

This was followed by an enlightening talk by Dr Usman Ansari on "Massive Blood Transfusion Protocols," which became the main core of the seminar. He explained how to manage large-scale transfusions during emergencies, helping both students and faculty to gain a clearer understanding of basic rules of blood donation.

Dr Sadia Ijaz, Associate Professor Hematology UMDC, acknowledged the significant role played by the MTH Blood Bank in collaboration with the UMDC Blood Donation Society and Punjab Blood Transfusion Authority. The blood bank's timely support during the Bunyan ul Marsoos mission was vital to the success of the operation. A moment of silence was observed, and the audience, faculty, and guests paid tribute to the Pakistan Army for their successful completion of the mission, which was a critical part of national security efforts. Dr Usman, Dr Shirza Nadeem, Dr Shazia Aslam, Head of Pathology Department, and Dr Komal Atta, Director of Medical Education, honored the winners of the Digital Poster Competition by presenting medals and certificates. In her closing remarks, Dr Shirza Nadeem thanked the guest speakers, participants, and faculty members for their invaluable contributions.

WORLD NO TOBACCO DAY SEMINAR HIGHLIGHTED HIDDEN DANGERS OF VAPING

In observance of World No Tobacco Day, the Department of Community Medicine organized an impactful seminar, focusing on the hidden dangers of vaping under the theme "Nicotine in Disguise: Vaping is Still Tobacco."

The keynote speaker Dr Muhammad Tahir Bashir, Head and Associate Professor, Department of Oncology at Faisalabad Medical University, emphasized the critical health risks associated with vaping, warning that e-cigarettes, often marketed as safer alternatives, still deliver harmful nicotine and carcinogens, making them far from safe. The seminar was held under the supervision of Dr Sumera Riaz, Head, Department of Community Medicine, UMDC, who has been actively engaged in raising awareness about the harmful effects of tobacco and vaping among youth.

Highlighting the theme "Nicotine in Disguise," the seminar aimed to raise awareness about the evolving face of tobacco products and their detrimental effects on youth and public health. The session included alarming statistics and real-world case studies linking vaping to respiratory illnesses, cardiovascular risks, and increased chances of addiction among teenagers. MBBS Students also displayed documentaries to raise awareness about the harmful effects of tobacco use. This initiative reinforced the global call to action under the World Health Organization's campaign for World No Tobacco Day, advocating stronger policies and educational efforts to counteract the tobacco industry's tactics and protect future generations from nicotine dependency.

TUF MARKED WORLD ENVIRONMENT DAY 2025 WITH SEMINAR ON “ENDING PLASTIC POLLUTION”

In commemoration of World Environment Day 2025, the Environmental Society organized a thought-provoking seminar on the theme “Ending Plastic Pollution”. The event underscored the university’s commitment to environmental sustainability and raising awareness about pressing ecological challenges.

The seminar was graced by distinguished guests. Mr Haroon Younas, Coordinator of the Freshwater Programme at WWF Pakistan, honored us as the Chief Guest and delivered an impactful talk emphasizing the urgent need for collective action against plastic pollution.

Mr Muhammad Ali, Executive Member of Faisalabad Chamber of Commerce & Industry (FCCI) attended as the Guest of Honour, while Dr Shaista Shafiq enriched the event as the esteemed Guest Speaker.

In line with the theme, the event featured the presentation of the innovative "Liquid Tree" project, launched on campus to promote sustainable environmental solutions and enhance green spaces through technology.

5-DAY COMMUNITY DISASTER RESPONSE WORKSHOP HELD BY REHABILITATION SOCIETY

The Rehabilitation Society, in collaboration with the Punjab Emergency Service Department (Rescue 1122) Faisalabad, organized a comprehensive 5-day workshop on Community Action for Disaster Response (CADRE) at the Government Staff Training College. The training session was led by Mr Adnan Ahmad, a Community Instructor from Rescue 1122 Faisalabad. This impactful initiative aimed to enhance local community preparedness and resilience against both natural and man-made disasters.

Throughout the five-day training, participants engaged in interactive, hands-on sessions focusing on:

- Disaster risk reduction and management strategies
- Community-led disaster preparedness and response
- Effective emergency communication and coordination
- Practical training in search, rescue, and first aid
- Life-saving CPR techniques for emergency situations

The workshop empowered community members with vital knowledge and lifesaving skills, encouraging proactive roles in disaster risk management. This initiative directly supports the UN Sustainable Development Goals: SDG 3 – Good Health and Well-Being, SDG 11 – Sustainable Cities and Communities, SDG 13 – Climate Action, and SDG 17 – Partnerships for the Goals.

40 deserving couples began their new journey together at the Mass Marriage ceremony held at TUF, sponsored by the Madinah Foundation. The ceremony reflected Madinah Foundation's commitment to uplifting underprivileged communities and promoting the values of unity and social welfare. Madinah Foundation also provided essential household items and dowry packages to the newlywed couples as a fresh start to their married lives. From TUF, the event was honored by the presence of Prof Dr Muhammad Ashiq, Dean, Faculty of Engineering and Technology; Prof Dr Muhammad Ashfaq, Dean, Faculty of Management Studies; Prof Dr Majid Hussain, Dean

Faculty of Information Technology; Prof Dr Matloob Ahmad, Dean, Faculty of Arts and Social Sciences; Mr Zubair Ahmad, Controller of Examinations; and Maj (Retd) Abid Hussain, Security Incharge. A renowned religious and social leader, Hafiz Muhammad Ayub Awan, was also present at the ceremony. Renowned religious scholar Qari Niaz Ahmed delivered the Khutbah-e-Nikah, offering prayers for the success, happiness, and prosperity of the newlywed couples. The grand event was attended by more than 2,000 guests, including friends, families, and community members.

SEMINAR "TEACHINGS OF HAZRAT UMAR FAROOQ (R.A) FOUNDATIONS FOR CHARACTER BUILDING"

ORGANIZED BY:
DEPARTMENT OF ISLAMIC STUDIES

Department of Islamic Studies in collaboration with Islamic Philosophic Society organized a thought-provoking seminar on "Teachings of Hazrat Umar Farooq (R.A); Provide the Foundations for Character Building of Students "on 27th June 2025. Prof Dr Matloob Ahmad, Dean Faculty of Arts & Social Sciences delivered an enlightening address highlighting key aspects of life of Hazrat Umar (R.A), his title "Al-Farooq" and his close family ties with the Holy Prophet Muhammad (SAWW). Dr Sharjeel, Lecture National Business School in his keynote address delivered a comprehensive talk on exemplary governance of Hazrat Umar (R.A). The Chief Guest Prof Dr Muhammad Ashfaq , Dean Faculty of Management Studies emphasized Hazrat Umar's governance and his unmatched contributions to the Islamic world. The seminar served as a spiritual and intellectual tribute to the life, leadership, and martyrdom of Hazrat Umar (R.A), highlighting his justice, discipline, and exemplary character.

During the session, a special discussion was held addressing the current moral and behavioral challenges faced by students. Faculty and guests emphasized the need for character building rooted in the teachings of Islam, drawing inspiration from the life of Hazrat Umar (R.A). Practical suggestions were shared to help students improve discipline, respect, and moral values. The seminar concluded with a collective commitment to nurturing ethical and responsible individuals through education based on Islamic principles.

AWARENESS CAMPAIGN ON MEDICINAL PLANTS AND CREATIVE REUSE OF RECYCLED BOTTLES

Students of the 6th Semester, Department of Rehabilitation Sciences and Rehabilitation Society, organized an awareness campaign at Al-Haseeb Grammar School, Millat Town, focusing on the health benefits of medicinal plants and the creative reuse of plastic bottles. The session highlighted plants like Tulsi, Lemongrass, Aloe Vera, Mint, and ornamental flowers for their health and environmental benefits.

Students and schoolchildren collaborated to plant these in eco-friendly planters made from recycled bottles, promoting sustainable urban living. This hands-on activity fostered environmental awareness, community engagement, and creative problem-solving, aligning with SDG 11.

QUALITY ENHANCEMENT CELL CONDUCTED MEETING FOR GRADUATE PROGRAM REVIEW

The Quality Enhancement Cell at The University of Faisalabad conducted the Graduate Program Review committee meeting, aimed at evaluating academic quality and strengthening graduate education standards.

The review process was carried out with the support and collaboration of the Director Academics,

Deputy Registrar Admissions, Controller of Examinations, Deans, and Heads of Departments across various faculties.

Prof Dr Hafiz Naeem Asghar, Professor at the University of Agriculture Faisalabad, served as the external resource person, providing valuable insights and academic evaluation expertise.

FINAL YEAR PROJECT PRESENTATIONS HELD AT NATIONAL BUSINESS SCHOOL

The National Business School, TUF conducted the Final Year Project Presentations for BBA and BSAF students, marking a significant milestone in their academic journey. The event highlighted students' innovation, analytical thinking, and commitment to academic excellence.

The projects were evaluated by esteemed external evaluators:

Mr Farooq Jamal, Assistant Professor, National Textile University, Faisalabad
Dr Yawar Abbas, Assistant Professor, The University of Agriculture, Faisalabad

Their expert evaluation and constructive feedback added great value to the academic rigor of the presentations. The event served as a platform for students to showcase their business acumen and research capabilities, reflecting the NBS's emphasis on experiential learning and real-world problem-solving.

SPORTS THE UNIVERSITY OF FAISALABAD

CELEBRATED OLYMPIC DAY WITH SPIRIT AND SPORTSMANSHIP

The Sports Society at celebrated Olympic Day with tremendous zeal and enthusiasm, bringing together students, faculty, and staff in a vibrant display of unity, athleticism, and community spirit. The event embodied the true values of the Olympic movement—excellence, friendship, and respect—as participants from across the university engaged in a variety of sports and physical activities.

From friendly matches and races to team challenges and recreational games, the campus buzzed with energy and excitement. The celebration not only provided a platform for students to showcase their athletic talent and teamwork but also promoted the importance of a healthy lifestyle, mutual respect, and inclusion through sports. By commemorating Olympic Day, TUF reaffirmed its commitment to nurturing well-rounded individuals and fostering a campus culture that values physical fitness, fair play, and global harmony.

ALUMNI ASSOCIATION ORGANIZED A NETWORKING TOUR TO MUKSHPTIRI TOP

The Alumni Association organized a memorable Alumni Networking Tour to Mukshptiri Top, bringing together Tufians from various batches for a day filled with nostalgia, connection, and community spirit.

In line with the Alumni Association's core objectives, mentorship for graduating students, the tour bridged the gaps across professions and generations to strengthen the Tufian network. The tour beautifully captured the spirit of togetherness and purpose.

STUDENT AND ALUMNI CORNER

The Society for Skin Care at The University of Faisalabad is dedicated to promoting healthy skin habits and awareness through education, community service, and innovation. We strive to create a positive impact on our community by organizing various events and activities that foster a culture of skincare and wellness. From organizing the International Conference on Dermal Sciences, featuring renowned experts and researchers, to arranging hands-on workshops on skincare and dermatology-related topics, our efforts aim to educate and empower individuals. We also organize events like the TUF Skin Expo and seminars for awareness of skin diseases, providing a platform for individuals to learn about skin diseases and how to prevent them.

In addition to these initiatives, we offer hands-on workshops on aesthetic procedures, including non-invasive procedures, to provide participants with practical skills and knowledge in advanced skincare techniques. Our workshops and sessions cover a wide range of topics, including basic wound care, basic suture training, lotions and creams formulation, hair conditioner making, plant extract preparation, and Rotavap workshops and many more. These hands-on sessions enable participants to develop practical skills and explore innovative approaches to skincare product development and aesthetic procedures.

Each of our initiatives is aligned with our mission to serve humanity and promote a healthier, more sustainable future for all. By providing education, training, and resources, we aim to empower individuals to take control of their skin health and well-being, and to promote a culture of skincare and wellness in our community.

President, Society for Skin Care
MINAHIL KHAN

Faces of TUF Pride

SYED ATTA UL QADIR

(Bachelor of Textile Engineering 2007-2011) Director of Works (Engineering) Richmond Shire Council, Australia

I graduated from The University of Faisalabad in 2011 and soon after moved to Australia to pursue a Master of Engineering at Griffith University. Although TUF was a relatively new institution at the time, I was deeply impressed by the high academic standards, modern facilities, and the visionary leadership of the Madina Foundation in laying the foundation of such a promising institute.

Over the years, I have held key positions in several Australian government bodies, including roles as Project Manager at Western Downs Regional Council, Projects and Assets Manager at Diamantina Shire Council, and currently, as Director of Works (Engineering) at Richmond Shire Council. I was also honored to receive an Australian Local Government Scholarship, which enabled me to study at Harvard University, where I completed a specialization in Leadership and Management. Additionally, I earned my MBA from the Australian Institute of Business and a specialization in Project Management from the University of Queensland

Having studied at some of the world's top institutions, I can confidently say that the level of student support, academic environment, and facilities at The University of Faisalabad are truly commendable. Future graduates can aspire to reach global heights, the sky is truly the limit.
