

# Annual Report

## 2024-2025

**PLACEMENT**  
BUREAU

# Introduction:

Placement Bureau at The University of Faisalabad (TUF) is dedicated to guiding students and graduates through their career journeys. Offering comprehensive support in self-analysis, career profiling, and job hunting, we enhance employability through strong connections with national and multinational employers. Since its restructuring in 2021, the Bureau has expanded its services to include not only traditional job placements but also support for students pursuing study abroad opportunities, entrepreneurship, and freelancing. Through Career Link 2025, we connect students with study abroad consultants, startup mentors, and freelancing platforms, broadening their career prospects. In addition, the Bureau organizes in-house training programs, internships, and recruitment drives to provide invaluable industry exposure and help students refine their skills before entering the professional world. We are committed to empowering students to succeed in their careers and beyond.

# “Assuring the Success of all of our graduates!”

Students at the University of Faisalabad engage in career exploration to enrich their student life experience, allow them to realise the value of education and career development, and attain their career objectives, contributing productively to society.”

## Future Planning:

Our future plans include offering international internships and job opportunities to our students, while actively engaging with our global alumni network to foster meaningful connections and opportunities.
